

# Testing & Guide to Add In

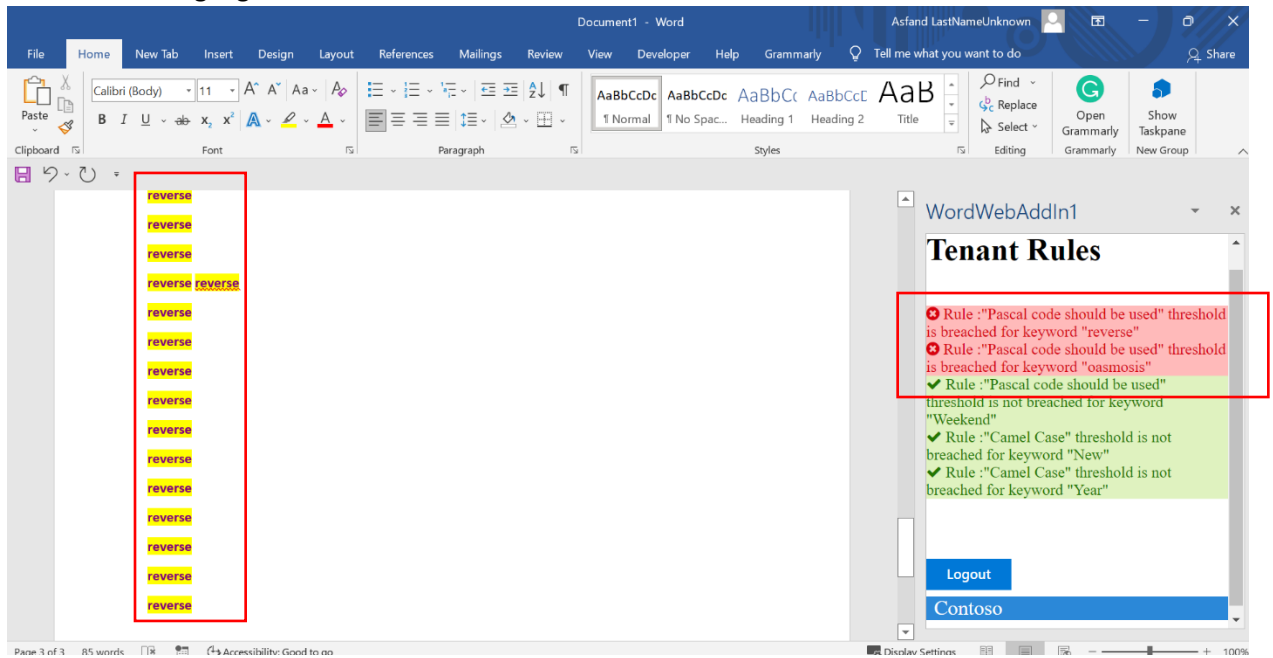

- To use Add In Click on the Show Taskpane on the Upper right corner.

- It will open the Add In & then you have to give credentials You can give only your email to login to the add in. So you can use the Add in services.

- After doing login you can use the service of Add in & our Add In gives the services that you can not use a pre defined words in the Word document if it will breach the threshold the predefined words will be highlighted

- It will go back to normal if it comes back under the threshold
